Safety in Motion

Amico

GoLift

The world's smallest patient lift weighing only 10 lbs, the Amico GoLift is an ideal ceiling lift system designed for routine transfers of patients up to **700 lbs (318 kg)**. A GoLift system lifting up to **400 lbs (181 kg)** is also available. For larger patients, you may combine two compact GoLift700 systems to obtain a lifting capacity of **1000 lbs (454 kg).** The GoLift is designed to be aesthetically pleasing and is the most compact ceiling lift in its class. In an effort to address infection control requirements, we incorporated smooth edges and rounded corners on our ceiling lift, carry bar, and hand control.
GoLift
Portable**450**

Introducing Amico's newest innovation. **The smallest and lightest portable lift on the market, weighing only 6 lbs!**
Check out more details inside and discover why the GoLift Portable**450** is the perfect portable lift for your institution or home.

Durability and Strength

GoLift with Headwalls & Casework

Amico's Architectural Products offer you limitless design, increased infection control, as well as integration for our GoLift System. Our custom designed headwall system features beautiful aesthetics and ensures maximum clinical functionality.

Our NuLook Casework is custom designed and pre-fabricated according to your requirements. Amico will meet your design while decreasing installation time and costs. Our casework is also the perfect match to our industry-leading headwall systems.

GoLift with Patient Lift Pendant (PLP)

Amico's GoLift can be integrated into our "iCE Series" Pendants, providing the caregiver with a state-of-the-art solution for safely transferring and repositioning patients. This solution features a constant charge to the lift, while removing the traditional conflict of a ceiling lift/boom combo as well as improving workflow for the patient and caregiver alike. The compact design also complements the pendant system and is very aesthetically pleasing to anyone in the room.

Installed as a single structure, the revolutionary PLP increases much needed real estate in the ceiling to allow for installation of additional medical equipment. This also results in tremendous installation savings for the Healthcare Facility.
Retrofit with **GoLift**

The unique quick connect design of our trolley adapters allow for easy installation and service, which will save you time and money!

If you need to replace your aging lifts, our patent pending GoLift can adapt to any existing track in your facility with our "Plug & Play" design.

- No need to replace your existing track

- Upgrade your lift motor in minutes

- Easy to install

- Easy to maintain

- Instant electrical and mechanical connection

- Compatible with end stop charging systems

- Adaptable with continuous charging systems

- Compatible adapter trolleys work with all major lift manufacturer tracks

Go Track Systems & Support Structure

GoTrack Configurations

We offer three different track profiles, as well as modular and custom configurations that come in:

- Straight Track
- Curved Systems
- Full Room Coverage (X/Y or H Systems)
- Optional Infection Control Track
- Optional Recessed, Flush Mount Track Systems

All GoTrack Systems feature:

- Low Weight and High Capacity
- Fast and Flexible Installation
- Hidden End Stops for Safety
- Anywhere/Continuous Charge

Regular

Double

Triple

Gantry Gate

Turntable

4 Point Carry Bar

4 Hook Carry Bar

We recognize that many factors outside of the ceiling lift itself contribute to the success of your safe patient handling solution. For this reason, we offer a wide variety of accessories such as turntables, gantry gates, 4-point carry-bars, and 4-hook carry-bars.

Description	Part Number	Length x Width x Height	Product Weight	Material
