

Unity Healthcare Solutions Longevity Statement on
Electrostatic Sprayers

- 1). Anticipated life of the ESS Electrostatic Sprayers are a minimum is 5-7 years with regular Maintenance. (Stainless Steel Fittings)
- 2). The exceptions to this statement are:
 - Solutions used must be water based
 - Maintenance Manual and cleaning instructions followed
 - Maintenance of Hand Control Unit charged according to Instruction manual

Hoses, castors, battery in hand control are exempt. These items are considered consumables and although very durable, proper care is dependent on the user.

This statement does not impact the standard manufacturer warranty which remains in place.

Sincerely,

A handwritten signature in blue ink, appearing to read "Karman D. Cusack".
