

Reusable Slings

- PPL Slings with webbing attachment are compatible for use with any 2, 4- or 6-point spreader bar lifting system. PPL slings with Keyhole opening clip attachments (buckles) are compatible for use with ARJO™ lifter systems.
- PPL Slings are available in a variety of styles, designs, and configurations. Within the range, there are generally 5 sizes for each style; each sling is color coordinated on the binding and handles for sizing identification as well as item numbers with sizing and complete description.
- Fullback Slings w/head support are available with permanent or removable spines for the headrest.
- Fullback Slings come with padded leg supports.
- Color coordinated displacement straps for quicker hook-up.
